Institutional Effectiveness Committee **Proposed Performance Indicators for the “Institutional Report Card”**

June 15, 2016

“The SGU Institutional Effectiveness Committee will be composed of the four vice presidents and the chairpersons of active institutional committees. The purpose of the Committee is to provide oversight of the data, methodologies and systems related to measuring institutional effectiveness of the University seeking to fulfill its mission. Of highest priority is the on-going assessment of progress in meeting accreditation standards of the institution’s academic programs. The Committee will be responsible for disseminating pertinent information and analyses measuring institutional effectiveness to key stakeholders, and promoting feedback. This task will in part be the responsibility of each Committee member to report back to the respective committee being represented. The SGU Assessment Coordinator will be the primary resource and liaison for the work and activities of the Institutional Effectiveness Committee.”
