

Curriculum Committee Meeting

February 2, 2023

1200-1244 pm

Meeting called by Aimee Schrader, President

Type of meeting: Monthly

Facilitator: Aimee

Note taker: Laurie Dunn

Timekeeper: Attendees

Attendees: Aimee Schrader, Elizabeth Kornely, Laurie Dunn, Lisa Hoelsing, Rhonda Jackman, Sheila Wheeler, and Shannon DuBray

Agenda Topics

Meeting minutes from January 12, 2023 meeting read. Sheila made a first motion to approve the January meeting minutes, which was seconded by Elizabeth.

Art Department Batik CCGs: Aimee reported that the Art Institute has submitted no changes previously recommended by the committee.

Discussion: The nursing department updated status sheet was presented by Rhonda and Laurie. Changes to the prerequisites include addition of PY 100 General Psychology, a decrease from two credits to one credit for PN 155 Medical Terminology, and discontinuation of the Medication Aide course as an alternative to the CNA course. Changes to the degree requirements include discontinuation of a second pharmacology course in the spring semester for PN students, and all four nursing basics courses will be six credits to include lab credits separated-out.

Action Items: Lisa made a motion to approve the nursing status sheet. Elizabeth seconded the motion.

Discussion: CCGs were presented by Rhonda and Laurie for PN 220 NB III (second half of medical-surgical nursing), PN 225 NB IV (maternity and pediatric nursing care), and PN 290 Nursing Preceptorship.

Recommendations made: Two routing slips need to have the correct course listed on each. CCG boxes need to be checked for the course numbering system alignment, for the course scheduling preference to include fall, and that the course provides a PLO artifact for mastery which would need to be added. Add that textbooks may vary. Teaching aids may vary as well. Some teaching aids may change over time. Thus, try to generalize, rather than specify, products used. Further consider *Bloom's Taxonomy* wording changes in the course objectives listings.

Re: curriculum mapping and mapping of PLOs, Lisa informed attendees that mapping can be found at the SGU website under academics, assessment of student learning, then program review. Objectives to meet PLOs.

Recommendations: For PN 290, change the dates at means of assessment to be more general, not specific. Add artifact(s). Objectives to indicate type(s) of assessment. Teaching aids may be not applicable (NA). Preceptor program at Hennepin County Medical Center (HCMC) is written. SGU Nursing has its own student handbook.

Action Items: Lisa made a motion to approve the changes with necessary corrections. Elizabeth seconded the motion.

Next meeting is scheduled for March 2, 2023 at noon. This meeting adjourned.
